

# Sumner Community Food Bank

## Our Covid-19 Prevention Policy

Each person in the food bank, whether staff, volunteer, or client,  
**must wear a mask at all times.**

Gloves are required of all who are handling food.  
All are asked to maintain social distancing at all times.

If, at any time during the pandemic, staff or volunteers spend time with people outside their “bubble”, they must self-quarantine for ten days before returning to the food bank. They may return earlier if they have a negative result on a test taken on the 6<sup>th</sup> day after potential exposure.

“Bubble” includes those people in your household or with whom you have regular contact and know that they are also refraining from Covid-risk behavior.

For example, your bubble includes people you know who always wear a mask when in contact with others, do not attend indoor or un-distanced outdoor gatherings, and follow Health Department guidelines for minimizing exposure.

We do all this so that we may continue to fulfill our mission of  
***Providing nutritious food with dignity to our neighbors in need.***

**Thank you!**
